Affiliated to Alzheimers New Zealand Inc, Alzheimers Otago is an autonomous society operating from three offices across Otago. Our primary role is to support people with dementia and the family, friends, neighbours and communities who care for them.

We do this by providing information, support, advice, carer support groups, home visits by qualified staff, education, a shoulder to lean on and a companion on this, at times, long and difficult journey.

Hours: 9am - 4pm
