

At Arrowtown Preschool the opportunities for learning that children experience are outstanding both within the Preschools and the community. Children are seen as capable learners who bring with them a huge range of knowledge, interests and experiences. Teachers build on these to empower confidence, build resilience and encourage responsibility. Respectful relationships with families, community and our environment are key.

Our programmes are inspired by aspects of the Reggio Emilia approach and Nature Based learning with a strong focus on movement and physical challenges.

Arrowtown Preschool is a non-profit organisation which guarantees any profit is invested back into learning opportunities for the children.
