

Welcome to the Website of the Central Otago Flying Club (COFC). We are a small Flying and Gliding club situated in Alexandra, in the South Island of New Zealand. We're blessed with uncluttered airspace and lots of fine weather for aviating about our stunning landscape.

Our club owns two aircraft: a newly refurbished Cessna 172, and a 2-seater Twin Astir glider. We own a large hanger at the local airport and have comfortable clubrooms right by the taxiway. Alexandra has a good sealed runway and wide grass vectors. We welcome new pilots for flight training in our Cessna or glider. We have 3 gliding instructors, and power instruction is available by arrangement. Glider launching is by aerotow or winch.
