We came from small beginnings in 1992. Over the following years we provided needs assessment and service co-ordination services and home support services. We also provided the best, most cost effective, equipment and daily living products through our equipment shop. A strong dedicated team of staff ensured that people who came to us for information, resources and support gained the outcomes they desired.

We will continue to grow in response to the needs of our communities in Southland, including Gore, Te Anau, Queenstown, Stewart Island and all other localities in our beautiful province.
