The GYRC is a group of horse enthusiasts who – regardless of their riding skills, experience or discipline – come together to enjoy the hacking, training or events that the area can provide. We organise **regular hacks** to various stations, farms and some conservation areas (gratefully with the support of local farmers and DOC), often followed by a BBQ. For competitive riders or simply for those who would like to improve their riding skills – there are **options of coaching by visiting respected coaches (basic schooling, dressage, show jumping)**.
