

Grey Power is a national organisation that was set up in the 80s as an advocacy group for older people. Over 50s are welcome to join us. We have about four main meetings a year featuring a speaker, smaller meetings from time to time on subjects that may interest a smaller audience. Social events are organised from time to time. Grey Power Electricity is available to members which means lower electricity costs also a range of discounts is available from local businesses. We welcome new members.
