

After the explosion of a facebook thread on the growing concerns of plastic use in our town, local musician Anna van Riel compiled the shared posts and data in a newly formed social media group ‘Plastic Bag Free Wanaka-group’. Gaining 200 members overnight it became apparent that talking wasn’t enough. So we are creating solutions to stop single-use plastic bags, and generally single-use plastic.

Our Goal

Our goal is to guide Wanaka towards being single-use plastic bag and bottle free by 2019.
