Queenstown Primary School is the largest, most established primary school in the Wakatipu Basin and holds strong credibility in the community. It has been operating on the current site since 1975 and has a school roll in the region of 650 students of more than 30 different nationalities.

Providing a high quality education and raising student achievement is our core focus. We recognise students' diverse abilities, interests and ethnicities and aim to provide a wide-ranging programme that will meet their needs; academically, socially and physically. We offer unique activities based on a strong outdoor education focus and encourage a strong partnership between home, school and the community.

There is no Ministry of Education 'school zone' for Queenstown Primary School, therefore we welcome students from any residential location in the district.
